

Product Maintenance Engineer

Are you a technical star within the façade industry? Are you an experienced CAD user? Are you also looking to join a committed team in an international, innovative and dynamic organization? If so, we are looking for you!

YOUR OBJECTIVE

You are a part of the Product Sustaining team and you have a hands-on mentality. You sustain and modify the products developed within our own product development team. You prepare all related engineering drawings, models, parts lists, work and engineering change documents.

YOUR MAIN ACTIVITIES

- ▶ Adjustment or revisions of design components, creating prototypes and developing full product details
- ▶ Using Design for Manufacture (DFM) principles in 2D or 3D Computer Aided Engineering (CAE) environment
- ▶ Investigating and resolving impact analysis for change with recommended actions
- ▶ Creation of the engineering change document and administering process
- ▶ Producing internal engineering and markups for customer-facing support documentation to recognized external and internal standards
- ▶ Collaboration and development of content for Technical Literature Department
- ▶ Collaboration with the product management department
- ▶ Collaboration with internal organization on sustaining engineering requests concerning among others, Cost of Quality, Cost Reduction and General Maintenance topics
- ▶ Participation in the assembly of test unit installation for product testing

THE IDEAL CANDIDATE

- ▶ MBO or HBO mechanical engineering working and thinking level
- ▶ 2+ years of product design or other design engineering-based background, experience within the Dutch building industry
- ▶ Experience within the façade industry preferred (windows, doors, curtain wall)
- ▶ Informed knowledge of EN standards and regional standards relative to the Dutch Construction Products
- ▶ Working knowledge of 2D drafting and 3D modeling and Product Lifecycle Management (PLM) systems; AutoCAD, Inventor and Vault/TeamCentre proficiency preferred
- ▶ Good communication skills (written and spoken) in Dutch and English

OUR OFFER

- ▶ Contract for 12 months with a prospect of permanent
- ▶ Pension scheme (PME)
- ▶ Travel allowance (max. 60 km per day)
- ▶ Generous leave of 40 days (incl. ADV days)
- ▶ Friendly and cooperative working environment

ENTHUSIASTIC?

Are you the perfect candidate? Please send your resume including a brief introduction per email to Sandra van de Weg (HR Advisor) to sandra.vandeweg@arconic.com. For further information about the position, feel free to contact Jean Avila (Design Product Leader) at jean.avila@arconic.com.

ABOUT KAWNEER

At Kawneer NL, we work with an enthusiastic team of professionals to design, develop and market aluminum window, door and façade systems for The Netherlands, Belgium, Germany and other European countries.

Our products are used in high-rise residential buildings as well as non-residential buildings. Our aim is to contribute to beautiful, sustainable and timeless architectural buildings. Hence our slogan: Building Legacies.
